### **PROFILE**

Addie represents clients in both the transactional and litigation aspects of the oil and gas industry. She has significant experience in drafting and negotiating all manner of oil and gas contracts, including master service agreements, flight service agreements, time charters, confidentiality agreements, purchase and sale agreements, and agreements allocating plugging and abandonment liability among the parties. She has represented clients in the acquisition and divestiture of both onshore and offshore oil and gas assets and advises clients on title and title curative matters. In addition, she has advised her clients in equity transactions and financings as well as corporate restructurings.

Addie has substantial experience in a wide array of federal regulatory matters and focuses her practice on bonding and financial assurance requirements for owners and operators of offshore oil and gas leases mandated by the Bureau of Ocean Energy Management (“BOEM”). She has substantial experience in navigating the exemption process for supplemental bonding and in analyzing and appealing decommissioning assessments from the Bureau of Safety and Environmental Enforcement (“BSEE”). She has also litigated a variety of contractual disputes, including indemnity claims, and has served as special counsel to an offshore operator debtor-in-possession, advising the client in all BOEM and BSEE matters.

Addie’s prior, first-hand experience in the oil and gas and maritime industries as Director of Administration for the Americas Division of SEACOR Marine, LLC and Director of Business Development for the Greater Lafourche Port Commission, administering Port Fourchon, provides a unique skill set upon which her clients rely.
